

# Year-Round Ciders

Available: 12 oz cans | 1/6 bbl | 1/2 bbl

## Brut Cider

Dry → Sweet Scale (1 to 7): 2

ABV: 6.2%

Ingredients list: Apples, hops.

Our signature cider. This is our driest offering and allows the apples to shine through in all their glory. We add a hint of botanicals to round out the apples and enhance their flavor with citrus notes, but don't be scared of the hops—it tastes more like wine than beer.

Pairing suggestions: Manchego cheese, popcorn, grilled cheese with apples.

## Blueberry Aronia Cider

Dry → Sweet Scale (1 to 7): 4

ABV: 5.5%

Ingredients list: Apples, organic aronia berries, blueberries.

This semi-dry cider features the tannins and tartness of aronia berries, balanced by the sweetness of blueberries.

Fruit-forward and full of flavor, tart and not too sweet.

And it's blue-tiful to behold.

Pairing suggestions: Goat cheese, chicken and waffles, grilled meats and vegetables.

## Pear Cider

Dry → Sweet Scale (1 to 7): 5

ABV: 5.9%

Ingredients list: Apples, pears, fair trade vanilla.

This semi-sweet cider features the addition of pears. They add a touch of sweetness and great flavor. What can we say? These two make a perfect pear-ing.

Pairing suggestions: Pork chops, roasted winter squash, shortbread, vanilla ice cream.

## Imperial Apple

Dry → Sweet Scale (1 to 7): 2

ABV: 9.5%

Ingredients list: Apples, raw honey.

We start with a classic apple cider, then add honey for an extra long fermentation. This results in a strong, full-bodied cider that allows the flavors of the honey to shine through without a lot of sweetness. We finish by aging on French oak for added complexity, resulting in a cider akin to a dry white wine. A cider fit for a queen bee.

Pairing suggestions: Spicy foods, Asian cuisine, soups and stews, blue cheese with honey. Makes a great aperitif.
